CINGULAR WIRELESS LLC
QUARTERLY E911 IMPLEMENTATION REPORT
FOR GSM, TDMA, AMPS, AND TDMA/AMPS NETWORKS

Cingular Wireless LLC ("Cingular"), by its attorneys and pursuant to the *Orders* in this proceeding,[1] hereby submits its Quarterly E911 Implementation Report for GSM, TDMA, AMPS, and TDMA/AMPS Networks. This Report details the status of Cingular's Phase I and Phase II E911 implementation efforts associated with its Global System for Mobile Communications ("GSM"), Time Division Multiple Access ("TDMA"), Advanced Mobile Phone Service ("AMPS") and TDMA/AMPS networks. The instant Report is limited to updating information that has changed since the filing of Cingular's previous report on October 29, 2004.[2]

---

[1] *In the Matter of Cingular Wireless LLC*, File No. EB-02-TS-003, NAL/Acct. No. 200232100001, *Order*, 17 F.C.C.R. 8529, FCC 02-132 (2002) ("*TDMA Order*"); *In the Matter of Cingular Wireless LLC*, File No. EB-02-TS-003, NAL/Acct. No. 200332100003, 18 F.C.C.R. 11746, FCC 03-129 (rel. June 12, 2003) ("*GSM Consent Decree*").

[2] *See* Cingular Wireless LLC, Quarterly E911 Implementation Report for GSM TDMA, AMPS, and TDMA/AMPS Networks, filed October 29, 2004.

For the first time, this report includes information for the former AT&T Wireless ("AWS") networks. On October 26, 2004, Cingular completed its acquisition of AWS. The Cingular and AWS networks have been operated independently, and therefore, separate spreadsheets are attached for each network. Any new PSAP request attributable to either entity will be accounted for on Cingular's report.

I. STATUS OF IMPLEMENTATION AND DEPLOYMENT PLAN

A. GSM Networks

The Report and the Spreadsheets attached as Attachments A and B include information on the status of E911 deployment associated with all PSAP requests for Phase I and Phase II E911 service in areas in which Cingular and AWS operate GSM networks, including the date the request was made and the status of the request.

GSM Consent Decree Benchmarks: Cingular and the former AWS were subject to separate consent decrees.[3] None of the benchmark deadlines contained in either Cingular's or AWS' decrees fell due since their last Quarterly Reports were filed. All six and fifteen month deadlines have been met, unless a different deployment date was negotiated with the requesting PSAP.

GSM Compliance Plan: Pursuant to paragraph 7 of Attachment A ("Compliance Plan") to the *AWS GSM Consent Decree*, AWS officers were required to attend compliance meetings required under paragraph 4 of the Compliance Plan. Although the Compliance Plan was never intended to apply to Cingular (and was not included in Cingular's Decree), Cingular has nevertheless taken steps to implement it. The Cingular officers signing this report have attended

[3] *Cingular GSM Consent Decree*; *AT&T Wireless Services, Inc.*, File No. EB-02-TS-018, NAL/Acct. No. 200232100002, FRN 0003-7665-32, *Order*, FCC 02-283 (rel. Oct. 9, 2002) ("*AWS GSM Consent Decree*").

the compliance meetings required under paragraph 4 of the Compliance Plan. They also have received the written advisory and accompanying admonition and understand Cingular's obligations to comply with all E911 rules, the requirements of the *AWS GSM Consent Decree*, and sections 1.17 and 1.65 of the Commission's rules.

Exceptions Report: Cingular received the FCC Wireless Telecommunications Bureau's report entitled "Import Exceptions for Cingular for 4th Quarter of 2004" (the "Exceptions Report"). In preparing the spreadsheet attached as Attachment A, Cingular made its best efforts to address each issued raised in the Exceptions Report.

B. TDMA, AMPS, TDMA/AMPS Networks

This Report and the Spreadsheets attached as Attachments A and B include information on the status of E911 deployment associated with all PSAP requests for Phase I and Phase II E911 service in areas in which Cingular and/or AWS operates a TDMA network. Since the Cingular and AWS networks have been operated independently, separate spreadsheets are attached for each network.

Cingular's Phase II service for its TDMA and GSM networks meets the Commission's network-based accuracy requirements of 100 meters for 67 percent of calls and 300 meters for 95 percent of calls.

If you have any questions, please contact the undersigned.

Respectfully submitted,

CINGULAR WIRELESS LLC

Attorney-Client Privileged

DECLARATION OF EDGAR REYNOLDS

I, Edgar Reynolds, President of Network Operations for Cingular Wireless LLC ("Cingular"), make this declaration in support of the "Quarterly Report Regarding E911 Implementation for GSM, TDMA, AMPS and TDMA/AMPS Networks" filed by Cingular pursuant to the Federal Communications Commission's *Orders* (released May 9, 2002 and June 12, 2003) regarding Cingular's E911 implementation. In my role as President of Network Operations, I oversee Cingular's efforts to (i) provide Phase I location information in response to valid PSAP requests, and (ii) implement Phase II location technologies. I have reviewed the Report and declare under penalty of perjury that the information contained therein concerning Phase I and Phase II deployment is accurate to the best of my knowledge, information and belief.

Executed January 25, 2005

Edgar Reynolds
President of Network Operations
Cingular Wireless LLC

CERTIFICATE OF SERVICE

I, Ernestine Screven, do hereby certify that on this 31st day of January, 2005, a copy of the foregoing "Quarterly Report Regarding E911 Implementation for GSM, TDMA, AMPS, and TDMA/AMPS Networks" was served by U.S. mail, first-class postage prepaid, on the following:

Mr. Robert L. Martin
