Re: Applications of Deutsche Telekom AG, T-Mobile USA, Inc., and MetroPCS Communications, Inc. for Consent to Assign Licenses, WT Docket No. 12-301

Dear Ms. Dortch:

On Monday, January 7, 2013, Deutsche Telekom AG ("Deutsche Telekom") and T-Mobile USA, Inc. ("T-Mobile USA") (together, the "Parties") filed their response to the FCC Information and Document Request of December 20, 2012, in the above-referenced docket. Included in that submission was a CD-ROM, Bates number TMUS_DEN_90000001, that contained the Parties responses to the data requests in the Information Request. Specifically, TMUS_DEN_90000001 contained the Parties responses to questions 5(f), 12, 13, and 14 of the Information Request, as well as the privilege log and a production index detailing what was produced in the Summation load files provided separately in an encrypted hard drive labeled "Volume TM001."

Upon further review of the documents provided in response to question 12 of the Information Request, the Parties have determined that the file labeled "FCC question 12 Utilization HIGHLY CONFIDENTIAL" contained certain minor inaccuracies. Specifically, the Parties found minor inaccuracies related to the reported PCS GSM utilization, PCS UMTS utilization, and AWS utilization. Accordingly, the Parties have corrected the data and are providing a new CD-ROM, Bates number TMUS_DEN_90000003, to the FCC. The new CD-ROM replaces the prior submission, TMUS_DEN_90000001, in its entirety. The new submission

No. of Copies rec'd 0+2
List ABCDE

does not otherwise add or exclude any documents from the material previously provided. The prior CD-ROM, TMUS_DEN_90000001, should be promptly destroyed.

TMUS_DEN_90000003 contains information that meets the requirements for treatment as "Highly Confidential" material under the Second Protective Order.[1] Should any questions arise concerning this filing, please contact the undersigned counsel for Deutsche Telekom and T-Mobile USA.

Best regards,

Eric W. DeSilva
