Mr. Jay Shed
Motorola Communications & Electronics, Inc.
2333-A, Utah Avenue
El Segundo, California 90245

Mr. Shed:

This letter is to inform Motorola Communications & Electronics, Inc. that the Fullerton School District is requesting a disconnect to our 800 MHZ trunking repeater service, effective the end of the work day on Friday, July 31, 1992.

As a result of this disconnect, please send any invoices to:

Fullerton School District
c/o Rick Lewis, Director
Transportation/Safety Services

Statement of Richard W. Lewis to the
Federal Communications Commission

I, Richard W. Lewis, make the following statement under oath
in connection with an official proceeding before the Federal
Communications Commission.

I am presently the Transportation Manager for the Moreno
Valley Unified School District. For ten years, from April 1983
through April 1993, I was the Transportation Manager for the
Fullerton Elementary School District. In 1982 the Director of
Transportation, Jerry Hart, purchased a radio system for the
Fullerton Elementary School District and obtained an FCC license.

Beginning in January 1992, right after we came back from
Christmas vacation, we experienced problems in the radio system
that we didn't have before school vacation began. We were
picking up signals from a company called Hyster, who kept
breaking into our service. We contacted Bob Moriarity of Advance
Electronics who told us it was a problem with Motorola, who
provided our repeater service. Motorola was undergoing a
reshuffling at the time, though, and couldn't help us solve the
problem.

About two or three weeks after the interference had begun,
Don Kirk, an acquaintance who used to work for Motorola and who
had since opened up Newport Radio, showed up. He sold us some
radios at good prices, and I asked him if he could help with the
interference problem. He said he would look into it. He later
got back to us and told me that the frequency we were on was good
for a 75 mile radius but that Hyster had more power than we did

and was overriding us. I asked Kirk how we could fix the problem and he said he knew someone who could help us. Then, about a week or ten days later, I got a call from James Kay who said the same things Kirk had told us and said he could take care of the problem. Mr. Kay said that he and Don Kirk owned a repeater we could use but that we would have to change our license to switch from Majesta Peak to his peak. Don Kirk then set it up so we would use their repeater for one year.

The paperwork for the service was handled by a woman named Agnes Pennington. I signed the repeater agreement and later got a new license in the mail. I didn't look at it at the time, but merely put it in the file without noticing that it had been changed from a GP (special emergency) license to a GB (conventional business) license. I know that when I signed up for the new repeater service I never intended to change the FCC license, and I never authorized Ms. Pennington or Don Kirk to make the change. I did sign the application that switched us from a licensee to an end user, but I didn't realize the consequences of what I had signed. I had only intended to move the repeater service from one peak to another to clear up the interference problem, and Don Kirk told me that it wouldn't effect the license.

Sometime later, I was called by James Kay who sounded very agitated. He said that Don Kirk was not forwarding him the money we were paying for repeater service and that he didn't want to do it to us but he was going to shut down the service. I asked Mr.

Kay if we could deal directly with him, and he said that would be no problem. When I contacted Kirk, he said that he had been having some financial problems and that he had been using our money for other purposes. Later, Kirk did forward the money to James Kay.

I have read the foregoing statement consisting of 3 pages. I have made any corrections and I have initialed each page at the top and the bottom. I have been permitted to add any information I believe is necessary, and by signing it I swear under penalty of perjury before a duly licensed notary public that this statement is true and accurate to the best of my knowledge and belief.

Signed by:

Richard W. Lewis

Dear Rick,

Per our telephone of today's date, please find the enclosed FCC 574 Application, NABEM Form and temporary operating permit ready for signature. Please be sure to sign your name on the temporary permit, appearing on the application... I have highlighted all areas for signature.

Please sign application, NABEM Form and mail to Lori at Newport Radio Comm. in the envelope that I have provided just as soon as possible. I understand that Lori will attach all the necessary checks.

Please keep your Temporary Operating Permit posted in your office until you receive your granted license which should be approximately 20-30 days.

If you have any questions, or if I can be of further service to you, please do not hesitate to contact me.

Respectfully,

WIRELESS TELECOMMUNICATIONS BUREAU'S
RESPONSE TO KAY'S FIRST SET OF INTERROGATORIES

1. On February 10, 1995, Kay served interrogatories on the Chief, Wireless Telecommunications Bureau. Pursuant to Sections 1.311, 1.313(b) and 1.323 of the Commission's Rules, the Bureau hereby submits its response.

2. For convenience, a prefix has been added to each interrogatory reflecting the particular paragraph of the Order to Show Cause, Hearing Designation Order and Notice of Opportunity for Hearing for Forfeiture, FCC 94-315 (released December 13, 1994) ("HDO") to which the interrogatory refers. For example, Kay's second interrogatory relating to paragraph 3 of the HDO is identified as "Interrogatory 3-2."

3. As a threshold matter, the Commission's Rules restrict the extent to which Commission employees may be questioned by written interrogatories. Thus, § 1.311(b)(3) specifically states that:

Response: This interrogatory is overbroad and requests information relating to the Bureau's litigation strategy. It is not discoverable under Section 1.311(b) of the Commission's Rules. The Bureau intends to examine Kay regarding all matters relevant to the issues designated in the HDO.

Interrogatory: 3-8. If the answer to the preceding interrogatory is in the affirmative, please specify each matter or instance not discussed in these interrogatories upon which you intend to rely.

Response: See response to preceding interrogatory.

With regard to Paragraph 4 of the HDO:

Interrogatory: 4-1. Please state all relevant facts concerning each instance in which Kay is alleged to have caused interference willfully or maliciously to a radio system or radio station.

Response: Attachments 21, and 28-36 reflect complaints alleging that Kay deliberately and maliciously interfered with the radio communications of others. Attachments 37-38 also relate to alleged instances of deliberate interference. The persons complaining have actual knowledge of the matters discussed in the complaints. In addition, Charles Doering, Harold Pick, Edward Cooper, Richard Lewis, Charles and Cornelia Dray, Chris Killian, Dave and Carla Pfeiffer, Dr. Michael Steppe, Robert Hansen and Gary Van Diest are believed to have knowledge of instances of deliberate and/or malicious interference. Also relevant are allegations contained in documents filed in the Browning Ferris Industries proceeding. Kay is a party to that proceeding and already possesses the referenced documents. Discovery of

certain other complaints would reveal the identity of informants and is therefore not discoverable under the Commission's Rules.

Interrogatory: 4-2. Please identify each radio station or system which Kay is alleged to have employed in willfully or maliciously causing interference to another radio station or radio station.

Response: See response to preceding interrogatory.

Interrogatory: 4-3. Please identify each radio system or radio station which is alleged to have suffered interference which was willfully or maliciously caused by Kay.

Response: See response to interrogatory 4-1.

Interrogatory: 4-4. Please identify each person or entity which is alleged to have suffered interference which was willfully or maliciously caused by Kay.

Response: See response to interrogatory 4-1.

Interrogatory: 4-5. Please identify each licensee who is alleged to have been coerced or misled by Kay into retaining him as its communications provider by means of Kay's willfully or maliciously causing interference to the licensee's radio station or radio system.

Response: See responses to Interrogatories 4-1 and 5-1.

Interrogatory: 4-6. Please identify each person who is alleged to have suffered interference willfully or maliciously caused by Kay who was thereafter called on by Kay or his sales staff with an offer to provide the person with higher quality communications service.

Response: See response to interrogatory 4-1.

Interrogatory: 4-7. With respect to each instance in which Kay is alleged to have willfully or maliciously caused interference to another radio station or system, please describe the means by which Kay is alleged to have caused interference willfully or maliciously to another radio station or system. By way of explanation and not of limitation, the description should set forth, inter alia, the date and time of the alleged interference, the equipment used to cause the interference, the equipment suffering the interference, and the type or mode of interference (for example, but not limited to, co-channel interference, adjacent channel interference, or intermodulation interference).

Response: See response to interrogatory 4-1.

Interrogatory: 4-8. With respect to paragraph 4 of the HDO, do you intend to examine Kay on any matters not discussed in these interrogatories?

Response: This interrogatory is overbroad and requests information relating to the Bureau's litigation strategy. It is not discoverable under Section 1.311(b) of the Commission's Rules. The Bureau intends to examine Kay regarding all matters relevant to the issues designated in the HDO.

Interrogatory: 4-9. If the answer to the preceding interrogatory is in the affirmative, please specify each matter or instance not discussed in these interrogatories upon which you intend to rely.

Response: See response to previous interrogatory.

With regard to Paragraph 5 of the HDO:

Interrogatory: 5-1. Please state all relevant facts concerning each instance in which Kay and/or his sales staff is alleged to have misused or abused the Commission's processes.

Response: Attachments 21, 27, and 39-42 are complaints alleging that Kay misused and/or

abused the Commission's processes. The persons named therein have direct knowledge of the facts at issue. In addition, Gary Van Diest, Don Ro d/b/a Accurate Concrete, Browning Ferris Industries, PCL Freight Service, Dave and Carla Pfeiffer, Charles and Cornelia Dray, Vincent Cardaro, Richard Lewis, Edward Cooper, Roy Jensen, Kevin Hessman, Robert Brown and Dr. Michael Steppe are believed to have direct knowledge of relevant facts relating to instances of abuse of process. Also relevant are allegations contained in documents filed in the Browning Ferris Industries proceeding and the Liberty Paving proceeding. Kay is a party to these proceedings and already possesses the referenced documents. Discovery of certain other complaints would reveal the identity of informants and is therefore not discoverable under the Commission's Rules.

Interrogatory: 5-2. Please state all relevant facts concerning each instance in which Kay and/or his sales staff is alleged to have fraudulently induced a person or entity to sign a blank Commission form.

Response: See response to interrogatory 5-1.

Interrogatory: 5-3. Please state all relevant facts concerning each instance in which Kay and/or his sales staff is alleged to have induced a person or entity to sign a form, the intent of which was misrepresented by Kay or Kay's employees.

Response: See response to interrogatory 5-1.

Interrogatory: 5-4. Please state all relevant facts concerning each instance in which Kay has allegedly misappropriated a customer's license.

DECLARATION

The undersigned declare under penalty of perjury that the foregoing are true and correct to the best of our information, knowledge, and belief.

Dear Rick,

Per our telecon of today's date, please find the enclosed FCC 574 Application, NABER Form and Temporary Operating Permit ready for signature. Please be sure to sign your name the same way it appears on the application. I have highlighted all areas for signature.

Please sign application, NABER Form and mail to Dan at Newport Radio Com. in the envelope that I have provided just as soon as possible. I understand that Dan will attach all the necessary checks.

Please keep your Temporary Operating Permit posted in your office until you receive your granted license which should be approximately 20-35 days.

If you have any questions, or if I can be of further service to you, please do not hesitate to contact me.

Respectfully,

Agnes Pennington

FEDERAL
COMMUNICATIONS
COMMISSION

This authorization becomes invalid and must be returned to the Commission if the stations are not placed in operation within eight months, unless an extension of time has been granted.
 EXCEPTION: 800 MHz trunked and certain 900 MHz station
 licensees cancel automatically if not constructed within one year.

FCC 574-L
