I am appalled to hear that this is even being considered. None of the biggies like Facebook, Netflix, and Google even want it! The only ones that want it are the greedy internet providers.... This is absolutely a disgrace, and once again shows that our government (this time the FCC) can be bought. The internet is not broken, and does not need to be fixed -- it is one of the few places left that has a somewhat even playing field! And damn, these greedy companies already make more than enough money -- Now they want to control the internet! DO NOT LET THIS HAPPEN!
