"Writing, singing and recording my songs is an important part of my livelihood. Why, in a sea of amazing new music, and a marvelous cascade of beautiful back catalogues, Big Radio thinks it is a good idea to provide a two-tier way of presenting music (pay for the spot...or don't pay and don't get the spot) reveals their primary interest.

Pay to play schemes have long been deemed illegal...and on-air-disclosure requirement is one of the guidelines to help people be honest. Please do NOT permit this consolidation which pushes independent music even further off to the side. Let the playing field be level."
