2. For the Second Quarter of 2014, 0.9442% of Inmarsat’s calling card revenue is international, 0% is interstate, and 0% is intrastate. The remainder of Inmarsat’s prepaid calling card revenue is for traffic originating and terminating outside of the United States.

3. Inmarsat will be making the required Universal Service Fund contribution based on the above-reported information; and

4. Inmarsat has provided the required information (i.e. prepaid calling card percentages of interstate use factors, and call volumes from which these factors were calculated, based on not less than one day’s representative sample) to those carriers from which Inmarsat purchases originating and terminating transport services for its prepaid calling card traffic.

To my knowledge and belief, the foregoing statements are true.
