Choctaw Nation of Oklahoma
Gregory Pyle - Chief
P. O. Box 1210
Durant, OK 74821

Dear Mr. Pyle:

The recent revisions to procedures Eligible Telecommunications Carriers and Providers “ETC” who are eligible for Universal Service Fund support require the ETC to assure all Tribal authorities of its commitment to their Tribal areas and to document the interaction with all Tribal representatives.

Oklatel Communications serves a small portion of the northern edge of the Choctaw Nation as noted on the attached map. It has been serving that area since the 1950’s, and has seen many changes in the technology available to use in providing service. We continue to upgrade our facilities to bring all types of telecommunications services to any and all residences of our service area. Today, all of our customers have available the full suite of voice grade services, access to 911, toll restriction and limitation if desired, and all of the customer calling features. Broadband related services are available and we continue to upgrade of the speeds available, though they may vary by location.

The Lifeline and LinkUp programs that are provided through certificated ETCs are vital to meet the communication needs of those individuals with financial assistance. We continually promote the existence of those programs to area residents in order to aid in the expansion of connectivity and ask that you help expand the awareness of the programs.
