In the Matter of Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Date Chairman Wheeler,

On behalf of Southwest Arkansas Education Service Cooperative in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator with the excellent background of Dr. Hernandez has been nominated and I welcome the opportunity to show my support with this letter.

Southwest AR Education Co-op represents nine districts in a four county area of south AR with approximately 12,000 students. SWAES serves many poverty students. The average free and reduced rate for our area is 70%. In many of our districts, broadband expansion is challenged by low population density making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Southwest Co-op wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary expertise at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state
would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a deep understanding of the endless possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in a large city or rural Arkansas, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural America, basic connectivity is barely accessible. Expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on behalf of the member districts of Southwest AR Education Service Cooperative, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration.

Sincerely,

[Signature]

Phoebe Bailey, Director
Jasper School District
Jeff Cantrell, Superintendent

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Jasper School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Jasper School District represents a district with nearly 870 students, employs approximately 185 teachers and support staff, and covers over 600 square miles in rural, isolated, and mountainous Newton, Johnson, Madison, Franklin, and Carroll counties in Arkansas. My district serves students in sparsely populated counties of which approximately 72% qualified for free and reduced meals during last school year. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections.

The Jasper School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Charleston School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s qualifications has been nominated and I welcome the opportunity to submit this letter of support.

The Charleston School District represents a district with 913 students (pre-k through 12) as of today’s date. My district’s Free and Reduced rate is 43.95% in a rural setting. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Charleston School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez help to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate...
that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. He has worked in several different districts representing a wide range of student demographics. I personally feel that he represents the interests of all students. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. I am confident that he will be an exceptional representative for America's superintendents on the USAC board.

I, on the behalf of the Charleston School District respectfully request your approval of Dr. Hernandez's nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Jeff Stubblefield,

Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Nemo Vista School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Nemo Vista School District represents a district with nearly 450 students, and a rural community with varying demographics. My district serves approximately sixty-two percent of low-income students. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Nemo Vista School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. Dear Chairman Wheeler,

On behalf of the Poyen School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Poyen School District represents a district with nearly 600 students, and is a rural area. My district serves 60% low income. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Poyen School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. Dear Chairman Wheeler,

On behalf of the South Side Bee Branch Schools in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The South Side Bee Branch Schools represent a district with nearly 550 students K-12, located in a rural area in the boot heels of the Ozarks Mountains on Hwy 65, 60 miles north of Little Rock Arkansas. The district serves rural low income families with very few businesses in the area, over 42% of our students are on free or reduced lunches. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The South Side Bee Branch Schools wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature.

The South Side School District does not discriminate on the basis of race, color, national origin, sex, age, qualified handicap or veteran.
Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. I have worked with Dr. Hernandez as a school superintendent and as a board member of the Arch Ford Educational Cooperative. He works very hard for the rural schools in making sure students in the rural areas have the same advantages as other schools. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Waldron School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Waldron School District represents a district with nearly 1650 students in rural Arkansas. The district is a high poverty area with over 72% of students receiving free or reduced lunches. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Waldron School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. As superintendent, I have worked with Dr. Hernandez on several district and state financial issues over the past couple of years. He is knowledgeable and demonstrates a willingness to help local school districts. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional
development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural American, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the Waldron School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Gary Wayman
Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Pulaski County Special School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Pulaski County Special School District represents an urban district with nearly 17,500 students. My district serves a population which includes 57% low income families. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Pulaski County Special School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. I have worked with Dr. Hernandez for several years as a fellow superintendent and most recently worked with him as the Deputy Director for the Arkansas Department of Education. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.
Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Jerry D. Guess, Ed.D.
Superintendent

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Pocahontas School District, in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Pocahontas School District represents a district with nearly 1900 students. We are a rural district in Northeast Arkansas. 50% of our district is row crop land and 50% is cattle country. A chicken processing plant, which will employ 1,000 people is currently being constructed which will significantly enhance the poultry industry within the community and region. Approximately 62% of the students in our district are from low income. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Pocahontas School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. I, on the behalf of the Pocahontas School District respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Daryl Baxton
Superintendent of Schools
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Bryant School District in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Bryant School District represents a district with nearly 9,200 students, is the geographical center of the state. My district serves 39% of low income students. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Bryant School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC
Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Cleveland County School District in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administration Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Cleveland County School District represents a district with nearly 890 students in a rural Arkansas area of approximately 48% low-income rural patrons. In many Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate internet connections. The Cleveland County School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident he will bring the same skill and diligence to bear as a USAC board member.

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of KIPP Delta Public Schools in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

KIPP Delta Public Schools serves nearly 1500 students, 90% of whom qualify for free and reduced lunch, across three rural communities in Eastern Arkansas. In the communities we serve broadband expansion is challenged by low population density and wide rural expanse, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way we can provide their students with adequate Internet connections. KIPP Delta Public Schools wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The Honorable Tom Wheeler
Federal Communications Commission
Washington, D.C. 20554

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

No doubt you will receive numerous letters of strong support regarding the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. Rather than model my thoughts on his many skills and virtue as an intelligent, upcoming Arkansas administrator, I will simply offer the following simple observations based on first-hand knowledge.

Dr. Hernandez is not a neophyte; he is well respected and has proven himself to be successful both at the local and state levels of public education. He is thoughtful and deliberative in both his speech and actions. He has a pleasant yet professional demeanor in his dealings with others. I believe him to be a team player. His leadership background in working with rural Arkansas school denizens, and those higher powers than govern them, in issues of connectivity and broadband access by itself should warrant a seat on the USAC Board of Directors.

Speaking now as a 40 year veteran of Arkansas public education, if you are looking for an individual the State of Arkansas and others will see as a logical, reasonable, and prudent choice for the USAC Board of Directors, Mike Hernandez is your candidate.

Selected or not, he will remain on my personal four decade “short list” of quality Arkansas educators.

Sincerely,

Randy C. Barrett, Ed.D.
Superintendent, Gentry Public School District

The mission of the Gentry School District is to work with the community in providing safe and successful experiences for each student.
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Glen Rose School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Glen Rose School District represents a district with over 1,000 students, spread over two counties. My district serves students of moderate to low income levels, in a rural part of Arkansas. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Glen Rose School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez help to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas
legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. Tim Holicer

Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Horatio School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Horatio School District represents a district with nearly 880 students in rural Southwest Arkansas. My district serves a student population consisting of nearly 30 percent Hispanic, and 70 percent white with a small population of Black and Native American students. We are a high poverty school with a free or reduced population of 74 percent. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Horatio School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez help to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars.

AdvancEd Accredited

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Corning School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Corning School District represents a district with nearly 1,000 students, located in a rural farming community. My district serves students from all backgrounds but we are predominately a poor district. That is evidenced by a free/reduced lunch rate of 70%. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Corning School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.
Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. I had the privilege of attending a year-long leadership institute with Dr. Hernandez. It was evident he cares deeply about the students of Arkansas. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural American, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the Corning School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Kellee Smith, Superintendent
