August 12, 2015

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Clarksville School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Clarksville School District serves 2700 students that reside in our small town and its surrounding rural area. The community is located along the I-40 corridor at the foot of the Ozark Mountains in western Arkansas. My district serves a Hispanic population that is nearly 30% of our total population and a free and reduced lunch population of over 70%. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Clarksville School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.
Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. I have personally worked with Dr. Hernandez concerning educational issues that have risen within my district. I have also had the opportunity to work with him on statewide issues when I served as president of the Arkansas Rural Education Association and president of the Arkansas School Administration Association. He was always driven to help school districts to find the best way to serve their unique student populations. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural American, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America's superintendents on the USAC board.

I, on the behalf of the Clarksville School District, respectfully request your approval of Dr. Hernandez's nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

[signature]

David Hopkins
Superintendent

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Greene County Tech School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Greene County Tech School District represents a district with nearly 3,700 students; we have a large portion of our district that is rural. Over 50% of our student body is made up of low-income homes. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Greene County Tech School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. Gene Weeks
Greene County Tech School District
Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Rogers School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Rogers School District is in the rapidly growing Northwest Arkansas region and serves nearly 15,000 students with diverse ethnic and socio-economic backgrounds. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Rogers School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.
Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. I have found him to be outstanding in his relationships with school districts and various departments at the state and national levels. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

Janie Darr, Ed.D
Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Harrison School District in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Harrison School District represents a district with nearly 2,800 students, nestled in the heart of the Ozark Mountains. My district serves a relatively rural population with a 51% free and reduced lunch rate. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Harrison District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. As a matter of fact, I feel so highly about Mike that I tried to hire him as my Assistant Superintendent earlier in his career. He is an exceptionally intelligent man with a true heart for students and doing the right thing. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the
implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler:

On behalf of the Magnolia School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Magnolia School District represents a district with nearly 3,000 students, located in rural South Arkansas. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Magnolia School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

John D. Ward
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The East Poinsett County School District represents a district with nearly 715 students, from the delta. My district serves 75 percent free and reduced students. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The East Poinsett County School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

Michael Pierce, Superintendent
East Poinsett County School District
In the Matter of Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Bergman School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Bergman School District represents a district with nearly 1,125 students, from the 114 square miles of rural Boone County. Approximately 54% of our students receive free or reduced breakfast and lunch and approximately 650 of our students are transported on one of our 12 bus routes. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Bergman School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Joe B. Couch
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Ozarks Unlimited Resources Education Service Cooperative (O.U.R. Co-op) in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The cooperative employs 109 staff who provides services to 16 districts and the approximately 2,450 district employees in Northern Arkansas. These 16 districts serve approximately 15,000 students in an extremely rural area of the Ozark Mountains. The majority of these districts are serving student populations that include a growing number of students that fall in the low-socioeconomic classification. In addition, two districts' student populations are approximately forty percent Hispanic with many of those students being English as a second language students. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The O.U.R. Co-op wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that
our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural America, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the O.U.R. Co-op respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration.

Sincerely,

In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler:

On behalf of the Calico Rock School District in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Calico Rock School District represents a district with nearly 410 students, in a rural mountainous, farm and national forest area. My district also serves a community that relies on the lakes and rivers to produce seasonal tourism. Industry in the area consists mostly of logging and farming. Calico Rock, has very little to offer in regards to high paying jobs. The percentage of low socio-economic students is approximately 67% district wide. Travel in this rural setting is made difficult due to the mountainous, curvy and more often than you would expect, gravel roads. This makes for poor shipping of goods and services and is one reason companies locate elsewhere. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Calico Rock School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.
Dr. Hernandez' qualifications for the USAC board extend beyond his recent achievements. Dr. Hernandez is a highly motivated, knowledgeable person with extraordinary abilities. He is an extremely effective communicator who routinely makes presentations at educator workshops across the state of Arkansas. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural American, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America's superintendents on the USAC board.

I, on behalf of the Calico Rock School District, respectfully request your approval of Dr. Hernandez's nomination to the USAC board of directors as a representative of schools eligible to receive E-rate. Thank you for your thoughtful consideration.

Sincerely,

Jerry Skidmore, Superintendent
Calico Rock School District

An Equal Opportunity Employer
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Rector School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Rector School District represents a district with nearly 600 students. The Rector School is in a rural area with diversified farming operations such as row crops and livestock. My district serves rural families that have a 68% free and reduced lunch population. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Rector School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $230 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Johnny Fowler
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Guy Fenter Education Service Cooperative in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Guy Fenter Education Service Cooperative serves 21 school districts in western Arkansas with over 44,000 students, in a primarily rural part of the state. My Cooperative serves a population of students who are primarily from low-income, rural, homes. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Guy Fenter Education Service Cooperative wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez help to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit
connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. I have personally worked with Dr. Hernandez while he was Superintendent of Schools in Danville, Arkansas and I know how much he cares about the children of Arkansas and wants only for them to have the best educational opportunities possible. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

Dear Chairman Wheeler,

On behalf of the Ashdown School District in Arkansas, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Ashdown School District represents a district with nearly 1450 students. We are a rural district in Southwest Arkansas. My district has a free and reduced lunch ratio of 65% and serves a majority of low income and rural students. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Ashdown School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Alpena School District, I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Alpena School District represents a district with nearly 600 students, located in the rural Ozark Mountains in Northwest Arkansas. My district serves three counties, in which 75% of our students come from homes of low socioeconomic status. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Alpena School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to coordinate a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Home of the Leopards
Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. His experiences as a teacher, former Superintendent in a rural district with a high concentration of English Language Learners, as well as his work with our State Department of Education have provided him a wealth of experiences and knowledge that would be an asset to this Board. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the Alpena School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration.

Respectfully Submitted,

Dr. Andrea Martin
Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Mountainburg School District, in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Mountainburg School District represents a rural school district with more 700 students and 197 square miles of mountains and valleys within its boundary. My district serves students who come from low income homes with over 70% free/reduced lunch recipients. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Mountainburg School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

I, on the behalf of the Mountainburg School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Dennis W. Copeland,
Superintendent
In the Matter of Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Paragould School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Paragould School District represents a district with nearly 3,100 students, located in rural Northeast Arkansas. My district serves a student population which consists of approximately 70% low income and 10% minority. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Paragould School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save...
millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. Dr. Hernandez was instrumental in assisting my district the first year in which I became the superintendent, in that he provided me with his expertise in finances. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the Paragould School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Debbie Smith, Superintendent
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the Midland School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company’s (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez’s caliber has been nominated and I welcome the opportunity to submit this letter of support.

The Midland School District represents a district with nearly 500 students, in a rural Arkansas area. My district serves a student body that is seventy-two percent Free and Reduced. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation’s worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The Midland School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas’s E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez’s leadership and knowledge.

Dr. Hernandez’s qualifications for the USAC board extend beyond his recent achievements. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-
driven decision-making through the digitization and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural America, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America's superintendents on the USAC board.

I, on the behalf of the Midland School District, respectfully request your approval of Dr. Hernandez's nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,

Dewayne Wammack, Superintendent
Midland School District
In the Matter of: Nomination for Universal Service Administration Company Board of Directors, CC Docket Nos. 97-21 and 96-45

Dear Chairman Wheeler,

On behalf of the West Side School District in Arkansas I write to express our strong support for the nomination of Dr. Michael Hernandez to the Universal Service Administrative Company's (USAC) Board of Directors. I was extremely pleased to learn that an administrator of Dr. Hernandez's caliber has been nominated and I welcome the opportunity to submit this letter of support.

The West Side School District represents a district with nearly 460 students. My district serves approximately sixty percent free or reduced students in a rural area. In many of Arkansas districts, broadband expansion is challenged by low population density and difficult terrain, making it cost prohibitive to provide adequate connectivity to thousands of students. Because of these obstacles, Arkansans have suffered from some of the nation's worst broadband availability, both at school and at home. In this environment, the E-rate program is often the only way our superintendents can provide their students with adequate Internet connections. The West Side School District wholeheartedly supports the E-rate program because it is the cornerstone of our efforts to provide students with an education that will allow them to compete in the global marketplace of the 21st century. Dr. Hernandez has repeatedly demonstrated extraordinary acumen at leveraging the E-rate program for the benefit of all Arkansans, and I am confident that he will bring the same skill and diligence to bear as a USAC board member.

When Dr. Hernandez became the Assistant Commissioner of the Arkansas Department of Education in 2014, the quality of school connectivity in Arkansas had reached a crisis point. The state was spending nearly $280 per megabit, nearly 20 times the national average. Rural school districts had only antiquated copper connections, sometimes providing a mere 7 kbps per student. Dr. Hernandez helped to spearhead a statewide effort to mobilize superintendents and local communities to better leverage Arkansas's E-rate funding. Under his leadership, a public-private partnership was established to provide every school district in Arkansas with a state-of-the-art fiber optic connection. This first in the nation solution is projected to save millions of dollars, provide every Arkansas student with gigabit connectivity, and has bipartisan backing in the Arkansas legislature. Building upon this plan, Arkansas is now one of a few states to mandate that every school district offer coding classes. I am confident that our state would never have reached this extraordinary milestone without Dr. Hernandez's leadership and knowledge.

Dr. Hernandez's qualifications for the USAC board extend beyond his recent achievements. I have known Dr. Hernandez personally for about five years now. He and I were administrators at neighboring districts for a couple of years. He is an extremely intelligent and logical thinker who keeps the best interests of students at the forefront of his decision making. Dr. Hernandez was an outstanding hire at the Arkansas Department of Education and was very successful in his capacity during his time there. At the Arkansas Department of Education, Dr. Hernandez spearheaded efforts to enable data-driven decision-making through the digitization
and analysis of educational data. In particular, he oversaw the implementation of statewide, cloud-based software designed to standardize district-level administrative procedures, as well as shepherding the creation of a database for curriculum and professional development materials. Through these experiences, Dr. Hernandez has acquired a visceral understanding of the transformational possibilities offered by connectivity and how a lack of access exacerbates the digital divide.

The Internet offers hope that no matter where a person lives, whether in Manhattan or the Ozarks, they have the opportunity to connect with others and engage in the greater American civic community. But today, for millions who live in rural America, basic connectivity is barely accessible. As rural electrification was in the past century, expanding connectivity to the far-flung corners of our nation is one of the challenges of our age. Meeting this challenge requires far more than funding; it is a question of determination and creativity. Monumental tasks of this sort require monumental leadership, and Dr. Hernandez has repeatedly demonstrated the vision and skill necessary to achieve such a mission. I am confident that he will be an exceptional representative for America’s superintendents on the USAC board.

I, on the behalf of the West Side School District, respectfully request your approval of Dr. Hernandez’s nomination to the USAC board of directors as a representative of schools eligible to receive E-rate.

Thank you for your thoughtful consideration,

Sincerely,
