RFD TV is an important part of our country. Why must you think that it's all important for you to "CONTROL" all the cable and satellite programming? What makes you think that "the urban area" cannot be interested in RFD TV? Maybe they are 'MORE' country than you think.

RFD TV has more GOOD programs per say than all the rest of TV combined. At least you don't have naked people, foul language, indecent programs for our kids to watch, no wonder our kids do what they do, what great ROLE MODELS these other programs love to share with young minds.

I hope that you will do a good review on what you would like your children and all children to watch. We are what we watch, so take that to heart and keep RFD TV.

Sincerely Arnie/Wilma Hummel
