we stand behind RFD tv in their fight for good wholesome American sensible tv. we
live in a large city but are heritage is country just like everyone in the USA. IF
IT WAS NOT FOR FARMERS where would the USA be - IF IT WAS NOT FOR COWBOYS where
would we be - it is crap to say we are an urban based company - where would that
company be if not for cowboys and farmers - no food - no heritage - and with some of
their urban based shows no morals - thank you - in my opinion there should be NO
MERGER.
