Please keep RFD-TV on the air, we need it. Calif may not seem to be one of those rural area's that are mostly farming and ranching, but there are so many programs on RFD TV that appeal to us here, even in the urban settings.

So many of the wholesome shows have been taken away from us that it is hard to find anything worth watching for kids and adults alike. How does the Simpsons, Southpark and similar shows encourage our youth to be kind, respectful, and a decent human being?

Please keep the stations that are willing to be outside the media box and not go with the flow of wondering how far can they stretch the limit of cussing and sexual situations.
