Venture Communications Cooperative  
(SAC 391680)

Certification of Compliance with Applicable Service Quality Standards and  
Consumer Protection Rules

This document details the processes and procedures that Venture Communications  
Cooperative (the "Company") follows to ensure compliance with service quality standards and  
consumer protection rules as laid out in FCC Form 481 Instructions.

The Company provides voice grade access to the public switched telephone network (PSTN) at  
a flat rate, enabling access to emergency services provided by local government or other public  
safety organizations such as 911.

For service quality standards that are affected by plant issues, the Company engineers and  
installs its plant and other facilities in such a way as to ensure safe, adequate and continuous  
service at all times.

In addition, employees are periodically trained on service quality standards and consumer  
protection issues. In particular, if any set of issues appear to be prevalent, employees are given  
briefings on how to handle such issues beyond the normal guidelines in place for resolution of  
customer complaints. A recent example is the call completion problems that have arisen and  
the customer calls that are generated as a result. Although this is not a service quality problem  
caused by the Company, it does affect customers of the Company and, therefore, deserves the  
attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating  
procedures are in compliance with service quality standards and that the operating procedures  
are not in violation of consumer protection rules. Internally a compliance officer ensures annual  
employee training and dictates the disciplinary process for improper use of consumer  
information. If concerns arise beyond the compliance officer, legal counsel is sought to assist  
with a resolution.

If complaints are filed with the Company related to service quality standards or consumer  
protection rules, the complaint is immediately investigated, the matter tracked and any  
corrective action noted. This process ensures that problems are addressed and corrections  
made. It should be noted that the Company has received no customer complaints in the past

At line 600 of FCC Form 481, Venture Communications Cooperative (the “Company”) certified that it is able to function in emergency situations as set forth in 47 C.F.R. §54.202(a)(1)(ii). This means that the Company has a reasonable amount of back-up power to ensure functionality without an external source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. This statement will detail how the Company is prepared to ensure continued service in an emergency situation.

**Back-Up Power**

The Company has a back-up generator available with a minimum of a four hour power supply for its central office. In addition, it has portable generators available for remote sites.

**Rerouting of Traffic Around Damaged Facilities**

The Company has route redundancy for long distance service, E-911 trunking and SS7 signaling trunking.

In the case of isolated groups of customers that may suffer damage due to a cable cut, the Company maintains sufficient staff and other resources to be able to put customers back in service in a very short amount of time. The Company’s emergency service equipment is located within its exchange and requires very little time to dispatch.

**Traffic Spikes**

The Company’s outside plant is designed, engineered and built with sufficient capacity to handle traffic spikes resulting from emergency situations and has been able to do so in the past. The Company is in an area where severe weather strikes periodically and has been able to handle communication needs at those times and has the experience from those situations to be able to handle such emergency situations in the future.

Lifeline Terms and Conditions

Venture Communications Cooperative ("Venture") offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive $9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

Lifeline Program Eligibility Information
