REDACTED-FOR PUBLIC INSPECTION

Marlene H. Dortch, Secretary
Federal Communication Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554

Form 481 – Carrier Annual Reporting Data Collection, 2015

Dear Ms. Dortch:

On behalf of Arctic Slope Telephone Association Cooperative, Inc. (“ASTAC”), GVNW Consulting, Inc. hereby submits the attached redacted and confidential versions of its “FCC Form 481 – Carrier Annual Reporting Data Collection” information pursuant to sections 54.313 and 54.422 of the Commission’s rules, as filed with the Universal Service Administrative Company. A copy is also being submitted to the Public Utility Commission of Alaska.

ASTAC requests confidential treatment pursuant to sections 0.457 and 0.459 of the Commission’s rules for 1) the Progress Report required by section 54.313(a)(1), 2) certain Broadband speeds noted on Line 711 required by section 54.313(a)(7) provided to commercial operations on the North Slope; 3) Financial Data required by section 54.313(f)(2) to be attached to this report, and as identified on Lines 3027-3024 of FCC Form 481. The information contained in the Progress Report, the Financials and on Line 711 contain competitively sensitive information that is secure from public access which could be used by a competitor to disadvantage or harm ASTAC.

Further, ASTAC requests confidential treatment pursuant to sections 0.457 and 0.459 of the Commission’s rules for those items in the annual Board Meeting Minutes not related to the Tribal Engagement Obligation required by section 54.313(a)(9). As a matter of policy, the information contained in the Board Meeting Minutes is only available to the membership of the Cooperative, not the general public.

No. of Copies rec'd 0+1
List ABCDE
In accordance with the Protective Order, two redacted copies marked "REDACTED – FOR PUBLIC INSPECTION" and one non redacted confidential version marked "CONFIDENTIAL – NOT FOR PUBLIC INSPECTION" are being filed with the Commission. A redacted copy has also been filed via the Electronic Comment Filing System.

If you have any questions, please contact me at 503-612-4418.

Sincerely,

Ken Snow
GVNW Consulting, Inc.

Enclosures

**Has your company received an ETC certification from the FCC?**

- [ ] Yes
- [X] No

**If your answer to Line 110 is yes, do you have an existing §4.302(a) "5 year plan" filed with the FCC?**

- [ ] Yes
- [ ] No

If your answer to Line 110 is yes, then you are required to file a progress report on Line 112, delineating the status of your company's existing §4.302(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

**Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 4.311(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.**

- [ ] Yes
- [ ] No

**Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §4.302(a). The information shall be submitted at the wire center level or census block as appropriate.**

54.312(a)(5) Satisfactions of Consumer Protection and Service Quality Standards

Consumer Protection

Voice and Broadband
Arctic Slope Telephone Association Cooperative, Inc. complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission Red Flag rules to prevent identity theft. A manual for each of those programs is in place and is part of the employees’ handbook. Employee training is conducted annually and new hires are instructed on the programs as required by their job functions. This applies to all lines of business (voice, broadband, wireless and lifeline).

Service Quality Standards

Voice
Arctic Slope Telephone Association Cooperative, Inc. complies with the service standards of the State of Alaska promulgated in Alaska Statutes, Title 3 Commerce, Community, and Economic Development Part 7 Regulatory Commission of Alaska, 3 AAC 52.200-8, AAC 52.340, Telephone Utilities and Alaska Administrative Code 3 AAC 53.700 State Telecommunications Modernization. This applies to all lines of business (voice, broadband, wireless and lifeline).

Broadband
Arctic Slope Telephone Association Cooperative, Inc. follows the service standards noted in NECA Tariff #5 and is committed to providing the highest service to its broadband customers.
In 7 of our village locations (Point Hope, Point Lay, Wainwright, Atqasuk, Nuiqsut, Kaktovik and Anaktuvuk Pass) we have fully redundant Redcom local exchange switches. The central offices that these switches are installed in are equipped with back up batteries designed to support an 8 hour power disruption. In addition, each location has a standby generator that will come on line automatically in the event of the loss of commercial power. These generators are equipped with external fuel tanks that will provide for 4 or 5 days of unattended operation. We have village reps in these villages that can check the site during an emergency and have fuel delivered if necessary.

In our two largest exchanges, Barrow and Deadhorse we have fully redundant DMS 10 local exchange switches. The central offices these switches are installed in are equipped with back up batteries to support an 8 hour power disruption. In addition, each location has a standby generator that will come on line automatically in the event of loss of commercial power. These generators are equipped with external fuel tanks that will provide for 4 or 5 days of unattended operation. In addition these locations are manned 7 days a week for emergency response.

In both Barrow and Deadhorse we have battery back at all remote locations and any locations without permanent standby generators are supported by portable generators.

In all locations we work with the two long distance carriers to reroute traffic as required to recover from network outages or traffic spikes. We have redundant routes to both major carriers.
Arctic Slope Telephone Association Cooperative, Inc.
Program Year 2016
PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN

PREAMBLE

This document is an integral part of the Arctic Slope Telephone Association Cooperative, Inc. (ASTAC) Program Year 2016 Annual Report, as attached to Form 481. It is in compliance with §54.313(a)(1) adopted in the FCC’s USF/ICC Transformation Order (11-161) and incorporates all further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was due by Rule, to the requisite regulatory authorities.

Arctic Slope Telephone Association Cooperative, Inc. advises that the environment in which ASTAC operates is dynamic, not static. As a result, certain network targets identified in its initial 5 Year Network Improvement Plan filed in 2014, may be modified in response to regulatory decisions that have been subsequently adopted, and as their implication upon ASTAC’s financial viability in providing the required services and service level quality became known.

Modifications to the Network Improvement Plan may also have been taken due to changes in technology (vendor)-driven support, weather, or other emergency related contingencies.

Targets not met or changed since the initial 5 Year Network Improvement Plan filing are identified and reasons provided for those changes.

UNIVERSAL SERVICE SUPPORT RECEIVED IN 2015

Per the Universal Service Administrative Company (USAC), as available for the period up to this filing, Arctic Slope Telephone Association Cooperative, Inc. received a total of (as of 06/08/15) in USF support funds. The breakdown of the funding to the point of filing is:

- **High Cost Loop Support**
- **Local Switching Support**
- **Connect America Fund-Intercarrier Compensation Support**
- **Interstate Common Line Support**
- **Safety Net Additive**

Universal Service Support funds are used to: 1) maintain, upgrade, and improve ASTAC’s network and, 2) cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within the authorized serving area.

USF support will continue to be included in ASTAC’s current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as to cover operating expenses and fixed costs incurred to obtain capital from lenders. ASTAC does not segregate USF separately for purposes of capital and operating expenditures; USF is expended in the same proportion as its contribution is to ASTAC’s aggregated revenue amount.
The proportionate share of USF expenditures in 2015 to date for CAPEX is estimated to be [REDACTED] (__) and for OPEX [REDACTED] (__).

In the accompanying 2015 project detail, expenditures for network improvements sometimes involve service quality, coverage and capacity as an integrated improvement project and are not mutually exclusive from one another. In terms of cost, projects involving multiple qualifiers are of equal dollar equivalence. Where a project involves a single qualifier, it is so noted.

In the Program Year 2015 filing, ASTAC reported the following: [REDACTED]
