In the Matter of Copper Valley Wireless, Inc.

Telephone Number Portability

Petition for Waiver of Rule Section 52.31, Or Extension of Time, to Comply with The Commission’s Wireless Local Number Portability Requirements

To: Chief, Wireless Telecommunications Bureau

THIRD AMENDMENT TO SECOND PETITION FOR LIMITED WAIVER OR EXTENSION OF TIME

Copper Valley Wireless, Inc. (“Copper Valley”), hereby amends its pending “Second Petition for Limited Waiver or Extension of Time” (“Second Petition”), filed on December 14, 2005, to state the following:

1. In the Second Petition, Copper Valley requested additional time (in the form of either a temporary waiver or an extension of time) to meet the requirements of Section 52.31 of the Commission’s Rules within which to port numbers within its cellular service area in the B4 Segment of the Alaska 2 – Bethel Rural Service Area. The Second Petition requested a February 25, 2007 compliance deadline. In support of the request, the Second Petition noted that the existing Plexsys analog equipment could not be made capable of providing Wireless Local Number Portability (“Wireless LNP”); and that the network equipment was to be replaced with equipment using the Code Division Multiple Access (“CDMA”) air interface, equipment that would be Wireless LNP-capable. The

---

1 The Second Petition was previously amended on December 14, 2006 and January 30, 2007.
Second Petition was prompted by an August 25, 2004 porting request from Dobson Cellular Systems, Inc. ("Dobson").

2. Because the equipment replacement (or over-build) project was well underway but was running behind schedule, on December 14, 2006, Copper Valley amended the Second Petition to request a May 26, 2007 compliance deadline. See "Amendment to Second Petition for Limited Waiver or Extension of Time," filed December 14, 2006.

3. The Second Petition is hereby further amended to report that the over-build facilities (both base station and switching equipment) for the Valdez, Glennallen, Lake Louise, Willow Creek, Tolsona Ridge, Paxson, Naked Island, Slana, and Whittier Cell Sites have been installed and were placed into commercial service on April 14, 2007; and that they are Wireless LNP-capable. These facilities will accommodate Dobson’s porting request. Thus, the Second Petition is moot on a going-forward basis from April 14, 2007; and Copper Valley is now porting numbers with Dobson.

---

2 The remaining four cell sites in the over-build project are scheduled to be completed and placed into commercial service by September or October of 2007.
WHEREFORE, good cause shown, Copper Valley requests that the Second

Petition, as amended herein and as amended previously, be granted.

Respectfully submitted,

Copper Valley Wireless, Inc.
