It's time that TV catches up with consumer changes and technology changes. Local news, sports and broadcast TV shouldn't be available only to the wealthy through big bundled packages that break the bank. Breaking up the stranglehold of big cable is the only thing that'll bring innovation to an industry that could become irrelevant to the next generation of Americans. Allow for innovation and give us TV neutrality now. Give Internet distributors of Broadcast TV the same rights as big cable, satellite and telcos!
