RE: MB docket No. 10-56

Dear Chairman Genachowski:

I understand that the Federal Communications Commission is now reviewing the joint venture proposed by Comcast and NBC Universal. I thought you might appreciate hearing the view point of someone deeply involved in a local community that has had many opportunities to work with Comcast in the past.

As the President & CEO of the Latin American Economic Development Association (LAEDA), I am blessed to work with many community and business leaders in helping create economic opportunities for minorities while facilitating the redevelopment of Camden, New Jersey. Our mission is to provide entrepreneurial training for disadvantaged, minority youth and adults in the Delaware Valley, primarily in Camden. This work is even more important now, as the recession has left many in Camden without a job and searching for hope.

Comcast has been a top supporter of our cause, teaming with LAEDA for several years as part of its Comcast Cared Day, helping revitalize areas of Camden, raising awareness about LAEDA, and supporting our Entrepreneurial Development Training Program. Far from being a faceless supporter, Comcast employees have worked side-by-side with LAEDA members to improve Camden and show the less fortunate in our community that they too have a chance to succeed. I believe this is the definition of true corporate citizenship.

I look forward to continuing to work with Comcast in the future and I hope this story helps inform your review of the company's proposed joint venture with NBC Universal.

Thank you for your consideration.

Sincerely,

Raymond L. Lamboy
President & CEO
