

Empowering Communities.
Changing Lives.

April 30, 2010

To the FCC Chairman:

Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

RE: MB Docket 10-56

Dear Chairman Genachowski:

It has come to my attention that the FCC has concerns about the Comcast, General Electric venture and the effect that would have for entities like NBC Connecticut in the local community. I'm writing this letter in support of the venture and have outlined my reasons below.

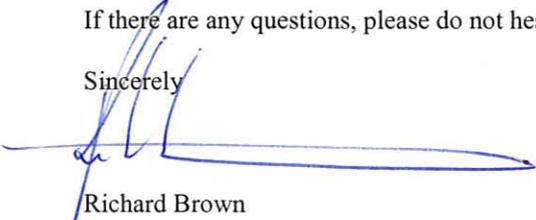

The Urban League of Greater Hartford has been a direct beneficiary of NBC Connecticut's commitment to the community. The Urban League, with NBC Connecticut's help, has promoted career fairs that bring employers face to face with job seekers who are often the most challenged when attempting to secure employment. NBC Connecticut has also played a significant role in supporting Urban League community events both financially and by providing volunteers. They have provided public service announcements that promote our services for first time home buyers, to those who are in need of foreclosure prevention, those requesting job training, those in need of GED preparation just to name a few. They have had a presence on our board of directors for the past 5 years and through that alliance have helped to ensure the League's strategic plan is best suited to have a positive impact on the community.

Comcast has also provided incredible support to the local community. Their partnership with the Urban League goes back approximately 8 years. They have provided funding for education services, provided volunteers, and promoted the Urban League's activities throughout the years.

The League's perspective is both NBC Connecticut and Comcast have demonstrated an extraordinary commitment to the Greater Hartford Community. They have provided volunteers, invested dollars and technical support and both organizations have provided internships or hired staff from the community. The alignment of these two incredibly community minded organizations will mean continued support to our local community through volunteers, financial and technical support. The Urban League supports this venture.

If there are any questions, please do not hesitate to contact me.

Sincerely

Richard Brown
