Re: *In the Matter of Applications of Comcast Corporation, General Electric Company and NBC Universal, Inc. for Consent to Assign Licenses or Transfer Control of Licensees, MB Docket No. 10-56*

Dear Ms. Dortch:

Comcast Corporation (“Comcast”) hereby submits for the record of this proceeding a summary of an agreement among Comcast and the ABC Television Affiliates Association, the CBS Television Network Affiliates Association, and the FBC Television Affiliates Association. The key provisions of the agreement are summarized below:

- The conditions in the agreement are generally effective for a period of seven years from the closing of the Comcast-NBC Universal, Inc. (“NBCU”) transaction.
- Comcast will engage in arms-length, good faith negotiations of retransmission consent agreements between Comcast and television stations affiliated with the ABC, CBS, or Fox Television Networks (the “non-NBCU Stations”).
- Comcast will not discriminate in its retransmission consent negotiations with the non-NBCU Stations on the basis of affiliation (or lack thereof) with Comcast or the NBC or Telemundo Television Networks.
- Comcast’s cable system affiliates will remain solely responsible for negotiating retransmission consent agreements with non-NBCU Stations, and such negotiations will be separate from and not influenced by NBCU. NBCU will remain solely responsible for retransmission consent negotiations for NBCU-owned stations with non-Comcast MVPDs.
- In a retransmission consent complaint proceeding involving a non-NBCU Station, Comcast will not rely on the terms of any retransmission consent agreement between Comcast and any television station wholly-owned, controlled, or under common control with Comcast, or affiliated with the NBC or Telemundo

Networks (the “NBCU Stations”), that is entered into following announcement of the Comcast-NBCU transaction to establish whether rates, terms, and other carriage and retransmission conditions are consistent with “competitive marketplace conditions.”

- Comcast will not attempt to gain a competitive advantage by discriminating against any local, in-market non-NBCU Station in favor of any NBCU Station licensed in the same market with respect to certain technical signal carriage matters.¹
