"This is a prime example of why monopoly laws were written. The effects against consumer interests will be very unfortunate if this merger is allowed. The intent of monopoly laws was largely to protect consumers' interests and to allow for choices, variety, competition, and fairness within the marketplace. These attributes of the market are diminished when monopolies (or near monopolies) are formed. In fact something that would be fantastic for the media landscape would be an increase in diversity. Please do the right thing and stop this merger from happening. Thank you."

"As a Comcast subscriber, I am paying more for less as they force customers on to Xfinity and creep current content/channels into a higher cost bracket. They also push On-Demand movies when I have decided Netflix suits me best. With the merger, I expect NBC products be pushed in our faces, when I find Hulu provides much greater variety. I am of the opinion that both Netflix and Hulu are endangered by this proposed merger, and I couldn't be more opposed."

"Get real! We need some backbone! As an independent, I voted for Obama. His credibility is in danger. You are part of the bureaucratic machinery that is causing it to crumble. You can do better. You need to do better! Block the merger of Comcast and NBC Universal! Your job is to protect the populace. It is not to make already too powerful entities even more powerful. "This is unacceptable. This is the end of the internet as we know it today. This is corporate America at its best. Our capitalist society is masked by "corporatism." What's next censorship? We might as well start to follow China's lead. They already have the world's largest economy, I'm sure it's because they control all the media. Now we are going to have a Merger between Comcast and NBC? What exactly are we promoting? Conservatism? Liberalism? Patriotism? Capitalism? This is borderline communism. It is extremely unacceptable for these two media mega's to merge. From a business point, let's increase profits. There are ways to do this ethically, responsibly, and morally. That doesn't include taking over all forms of media. Senator Bernie Sanders from Vermont will have better information on this. I don't know what side of the aisle he stands on and frankly I don't care. Listen to what he is saying. Please do not allow this merger to go through. We are witnessing the end of the American Empire."

<p>"Ditching the fairness doctrine was bad enough, FCC. Come on, aren't Comcast & NBC powerful enough? If NBC fears it will go down without melding into the internet, hey, that's something for the market to decide. You're into the free market, right? No need for you to work at eliminating competition. We let the market decide everything else, why not the internet? Of course, we know you have no interest in what your customers want. It's all about the big guys now. Due in part, to that missing Fairness Doctrine. btw, if Comcast blocks Netflix, this little family will cancel all our Comcast services—the premium TV channels, the phone, the internet, the works.
