Re: *Global Crossing Limited and Level 3 Communications Inc., Application for Consent to Transfer Control of Authority to Provide Global Facilities-Based and Global Resale International Telecommunications Services and of Domestic Common Carrier Transmission Lines, Pursuant to Section 214 of the Communications Act, as Amended, IB Docket No. 11-78*

Dear Ms. Dortch:

In response to a question from staff, Level 3 provides the following information. Of a total of 37 entities with which the combined Level 3 and Global Crossing have peering relationships, 20 provide transit service in North America, based on BGP route announcements and Level 3's commercial experience. A transit provider would be an entity that provides internet transit service to enterprise and/or wholesale customers.

These are set forth in the attached confidential appendix.

Sincerely,

John T. Nakahata  
*Counsel to Level 3 Communications, LLC*
