Re: Cellco Partnership d/b/a Verizon Wireless Supplement to Response to Information and
        Discovery Request

        Application of Cellco Partnership d/b/a Verizon Wireless and SpectrumCo, LLC For
        Consent To Assign Licenses and Application of Cellco Partnership d/b/a Verizon Wireless
        and Cox TMI Wireless, LLC For Consent To Assign Licenses, WT Docket No. 12-4

Dear Ms. Dortch:

    On March 22, 2012, Cellco Partnership d/b/a Verizon Wireless filed its response to the FCC
Information and Discovery Request of March 8, 2012 in the above-referenced docket.[1]   That
response has been updated and supplemented in subsequent filings. By this filing, Verizon
Wireless is providing further documents in response to the FCC's Information and Discovery
Request including:

    –   As requested by FCC staff, a supplemental production of documents identified as
         responsive to the FCC's requests for "plans, analyses, and reports."[2] The materials
         provided with this submission were compiled by conducting document searches using
         search terms and custodian lists reviewed with and approved by the Commission's
         staff. The documents have been placed on a disk titled "VZW-005." Exhibit A hereto
         provides the names and titles of the custodians whose documents are being provided.
         Exhibit B hereto provides the search terms used to identify these documents.

---

[1] Information and Discovery Request for Verizon Wireless (attachment to Letter from Rick Kaplan, Chief, Wireless
Telecommunications Bureau, FCC, to Michael Samsock, Cellco Partnership, dba Verizon Wireless, WT Docket No.
12-4 (dated March 8, 2012)). The FCC updated and modified Request 3 on March 13, 2012.

[2] The supplement addresses requests referred to in questions 6a-c, 7a-b, 8, 10c, 11, 13a-c, 14, 15a-d, 17a-c, 18, 20,
23, 24, 25a-b, 26, 27, 28, 29a-e, 31a-f, 32a-c, 33a-d, and 34a-d. A subset of these documents was inadvertently
assigned overlapping bates numbers with previously produced documents by the document production vendor. These
documents are currently being assigned new bates numbers and will be provided with a supplemental production.

– An overlay updating responsive tagging for documents previously produced as responsive to the FCC's "all document" requests[3] that have also been identified as responsive to the FCC's "plans, analyses, and reports" requests by the attached search terms.[4]

– As discussed with staff, given the subject matter of the requests to which these documents are responsive, and in order to expedite this production, all documents have been temporarily designated "Highly Confidential" under the *Second Protective Order* in this docket.[5] Verizon Wireless will shortly provide a database overlay that will downgrade that designation from "Highly Confidential" to either "Confidential" (as defined under the *Protective Order* in this docket) or "public," where appropriate, based on a review now underway.

– A file titled "Priv_Log_20120424_HIGHLY_CONFIDENTIAL.xls" included on the encrypted hard drive containing the supplemental production that provides privilege log data for items flagged by the search terms for the new custodians.

Should any questions arise concerning this filing or the electronic media provided in connection with this filing, please contact the undersigned.

Sincerely,

John T. Scott, III

cc: John Spencer, WTB (w/encl.)

---

[3] The "all document" requests reference FCC requests 9b-d, 10a-b, 12, 21, 30, 35a-b, and 36 in the FCC's Information and Discovery Request.

[4] The overlay updates documents provided to the FCC in Summation format on March 22, 2012, as revised by the March 26, 2012 filing, April 5, 2012, and April 19, 2012.
