DATA REQUESTED IN *SPECIAL ACCESS NPRM*

WC Docket No. 05-25, RM-10593

In this Public Notice, we invite the public to submit data voluntarily to assist the Commission in evaluating the various issues that have been raised in the *Special Access NPRM*.¹ In that NPRM, the Commission explained that an examination of the current state of competition for special access facilities is critical to determine whether the Commission's pricing flexibility rules have worked as intended.² In addition, the Commission sought comment on appropriate measures to ensure that price cap rates for special access services remain just and reasonable after expiration of the CALLS plan.³ Subsequently, the Commission sought updated information on these issues, and the parties continue to provide their views to Commission staff.⁴

On November 5, 2009, the Commission released a Public Notice inviting comment on the appropriate analytical framework for determining whether the current rules are working.⁵ The National Broadband Plan recommended that this framework ensure that rates, terms and conditions for special access are just and reasonable, given the significant role special access circuits play in the availability and pricing of broadband service.⁶ Although the Commission has yet to adopt an analytical framework, there are certain data that would need to be reviewed regardless of which analytical framework is adopted in

this proceeding. Accordingly, at this time, the Commission asks the public to voluntarily submit the facilities data requested in this Public Notice for this proceeding.⁷

If the public submits data that contain confidential and proprietary information, it shall submit such data in accordance with a revised protective order that is being released at the same time as this Public Notice, as discussed in more detail below.⁸ As it continues developing its analytical framework, the Commission plans to ask for additional voluntary submissions of data in a second public notice.

The data collected under this public notice will not be made immediately available to the public to allow staff time to perform an initial review for completeness and responsiveness. As indicated above, there will be a second data request. Data from both collections will be available for inspection pursuant to applicable protective orders following our receipt of data responsive to that second request.

The Commission requests that the public voluntarily submit the requested data in response to this Public Notice on or before January 27, 2011. Responses to this data request may be filed on a rolling basis.

I. Definitions for this data request:

1. A **connection** is a wired “line” or wireless “channel” that provides to an **end user** or seller of CMRS a dedicated communication path between a **provider’s** network (*e.g.*, an end office or similar point of aggregation) and a **location**. Multiple dedicated communication paths serving one or more end users at the same location using the same wired line or wireless channel should be counted as a single connection. For purposes of this request, wired lines and wireless channels used to provide dedicated communications paths within and between providers’ networks are not considered connections (*e.g.*, connections between the point of presence of an interexchange carrier and LEC wire center or connections between LEC wire centers).
2. An **end user** is a business, institutional, or government entity that purchases a dedicated communications path for its own use (*i.e.*, not for resale). Carriers are not end users with the exception that CMRS providers are considered end users to the extent they are purchasing dedicated communications to a cell site.
3. **Listed Statistical Area** means the geographic extent of the metropolitan, micropolitan or combined statistical area as defined in OMB Bulletin No. 10-02 issued on December 1, 2009 listed in Attachment C.⁹

⁷ In this Public Notice, we seek facts or opinions submitted in response to our general solicitation of comments from the public. No person is required to supply specific information pertaining to the commenter, other than that necessary for self-identification, as a condition of our full consideration of the comment. Thus, this Public Notice does not seek “information” as the term is used in the Paperwork Reduction Act of 1995. See 5 C.F.R. §1320.3(h)(4); *see also* Paperwork Reduction Act of 1995, Pub. L. No. 104-13, 109 Stat. 163.

⁸ See *In the Matter of Special Access Rates for Price Cap Local Exchange Carriers*, Modified Protective Order, WC Docket No. 05-25, RM 10593, DA 10-2075 (rel. Oct. 28, 2010) (*Modified First Protective Order*). We issued a protective order in connection with this proceeding in 2005. See *In the Matter of Special Access Rates for Price Cap Local Exchange Carriers*, Order, WC Docket No. 05-25, 20 FCC Rcd 10160 (2005) (*First Protective Order*). However, the protective order we release today supercedes the *First Protective Order*.

⁹ See OFFICE OF MANAGEMENT AND BUDGET, BULLETIN NO. 10-02, UPDATES OF STATISTICAL AREA DEFINITIONS AND GUIDANCE ON THEIR USES (2009), available at <http://www.whitehouse.gov/omb/assets/bulletins/b10-02.pdf>.

4. **Location** means a building, other free-standing site, cell site on a building, or free-standing cell site.
5. **Provider** means any entity that supplies electronic communications services, including voice, data and/or video services. Providers include incumbent LECs, competitive LECs, interexchange carriers, cable operators and companies that provide fixed wireless communications services.
6. **Span** means lengths of fiber with terminating equipment at both ends.

Please submit the information as an ESRI Shapefile using a line feature class that contains the following data for each feature:

Field Name	Description	Type	Example
Provider	Provider Name	Text	ABC Co.
DBA	“Doing-business-as” name	Text	Superfone, Inc.
FRN	Provider FCC Registration Number (with leading zeros)	Text	0008402202

Since ESRI Shapefiles typically consist of 5 to 7 individual files including the associated metadata and geodatabase, data should be submitted as a single, zipped file containing all the component files. The zip file should be named “III.B.3.iii_enduser_fiber_FRN_ProviderName.zip” where FRN is the provider’s FRN number and ProviderName is the provider name.

CMRS Cell Sites by Location (Question III.C)

We request that all CMRS providers, for each cell site in each Listed Statistical Area, provide the following information: (1) the actual situs address for the cell site (*i.e.*, land where the cell site is located) if the cell site is located in or on a building; (2) the geocode for the cell site (*i.e.*, latitude and longitude); (3) whether the location is a cell site in or on a building, or a free-standing cell site; (4) the CLLI code of the incumbent LEC wire center that serves the location; and (5) the name of the carrier that provides your connection to the cell site.

Instructions for Cell Sites Record Format:

1. Please obtain a template for this data specification, available at <http://www.fcc.gov/wcb/ppd/template.xls>. Please enter or cut and paste your data into the template. Do not submit data in any other format. See the Public Notice for details on how to submit data.
2. Leave cells blank in the case of data that is not applicable for that record.
3. Instructions for providers needing to obtain a FRN can be accessed at <https://fjallfoss.fcc.gov/coresWeb/publicHome.do>. The FRN should be 10 digits and include leading zeros.
4. The Location_ID field is a sequential integer ranging from 1 to the total number of locations. Records containing information about connections to the same location should be assigned the same Location_ID.
5. Address data fields should be space-delimited in standardized Postal Service form. See <http://pe.usps.gov/cpim/ftp/pubs/Pub28/pub28.pdf>.
6. Latitude and Longitude of the geocoded address should be derived from a known geocoding platform like Bing maps, Google, Yahoo, batchgeocode.com, or other geocoding solution. Please enter values in decimal degrees with five (5) decimal places.
7. For the CLLI code, please enter the first eight digits of the CLLI code of the ILEC wire center serving the location
