NOTICE OF APPARENT LIABILITY FOR FORFEITURE

Adopted: February 6, 2014

Released: February 7, 2014

By the District Director, Denver Office, Western Region, Enforcement Bureau:

I. INTRODUCTION

1. In this Notice of Apparent Liability for Forfeiture (NAL), we find that KRCA License, LLC (KLL), licensee of Station KPNZ (Station) serving Ogden, Utah, apparently willfully and repeatedly violated Section 11.35(a) of the Commission's rules (Rules) by failing to maintain operational Emergency Alert System (EAS) equipment and logs.¹ We conclude that KLL is apparently liable for a forfeiture in the amount of nine thousand dollars (\$9,000).

II. BACKGROUND

2. Station KPNZ is a full-power television broadcast station licensed to the community of Ogden, Utah, with a main studio in Salt Lake City, Utah.² On February 7, 2013, an agent of the Enforcement Bureau's Denver Office (Denver Office) inspected the Station at its Salt Lake City main studio location. At the time of the inspection, only an EAS receiver was located at the main studio and employees were unable to make any EAS records available for inspection. Station employees advised the Denver agent that the EAS unit was located at the station's Master Control in Burbank, California.

3. The following day, February 8, 2013, a KLL employee from the Burbank office contacted the agent, and confirmed that KLL did not have any EAS records for the Station. The representative emailed the agent later the same day, and provided documentation regarding the Station's EAS operation, which included a log of EAS Required Weekly Tests (RWTs) that were generated from the station's unit in Burbank. The log only included RWTs that the Station had transmitted on February 7 and 8, 2013. The email also included a schematic for the remote operation of the Station's EAS equipment, illustrating how the EAS equipment in Burbank communicated with the EAS receiver and the broadcast transmitter, both located in Utah.

4. On May 16, 2013, the Denver Office issued a Notice of Violation (NOV) to KLL for multiple violations of the EAS Rules because of its failure to produce any records related to the Station's EAS and the operational status of the unit, including logs related to EAS tests and deficiencies.³ In its

NOV Response, KLL stated that the Station’s EAS equipment “was not in fact regularly monitoring the required local EAS sources, the required weekly and monthly tests were not being properly and regularly received and transmitted, and a record of the deficiencies had not been made regularly in the station logs.”⁴ KLL also stated that “the EAS equipment was not properly generating EAS logs as it is designed to do.”⁵

III. DISCUSSION

5. Section 503(b) of the Communications Act of 1934, as amended (Act), provides that any person who willfully or repeatedly fails to comply substantially with the terms and conditions of any license, or willfully or repeatedly fails to comply with any of the provisions of the Act or of any rule, regulation, or order issued by the Commission thereunder, shall be liable for a forfeiture penalty.⁶ Section 312(f)(1) of the Act defines “willful” as the “conscious and deliberate commission or omission of [any] act, irrespective of any intent to violate” the law.⁷ The legislative history to Section 312(f)(1) of the Act clarifies that this definition of willful applies to both Sections 312 and 503(b) of the Act,⁸ and the Commission has so interpreted the term in the Section 503(b) context.⁹ The Commission may also assess a forfeiture for violations that are merely repeated, and not willful.¹⁰ The term “repeated” means the commission or omission of such act more than once or for more than one day.¹¹

KLL also supplied an employee training and equipment testing plan for the Station to ensure future compliance. *See Id* at 1–4, Attachments A–C.

⁸ H.R. Rep. No. 97-765, 97th Cong. 2d Sess. 51 (1982) (“This provision [inserted in Section 312] defines the terms ‘willful’ and ‘repeated’ for purposes of section 312, and for any other relevant section of the act (e.g., Section 503) As defined[,] . . . ‘willful’ means that the licensee knew that he was doing the act in question, regardless of whether there was an intent to violate the law. ‘Repeated’ means more than once, or where the act is continuous, for more than one day. Whether an act is considered to be ‘continuous’ would depend upon the circumstances in each case. The definitions are intended primarily to clarify the language in Sections 312 and 503, and are consistent with the Commission’s application of those terms”).

¹¹ Section 312(f)(2) of the Act, 47 U.S.C. § 312(f)(2), which also applies to violations for which forfeitures are assessed under Section 503(b) of the Act, provides that “[t]he term ‘repeated’, when used with reference to the commission or omission of any act, means the commission or omission of such act more than once or, if such commission or omission is continuous, for more than one day.” *See Callais Cablevision, Inc.*, 16 FCC Rcd at 1362, ¶ 9.

A. Failure to Maintain Operational EAS Equipment and Logs

6. Every broadcast station is part of the nationwide EAS network and is categorized as a participating national EAS source.¹² The EAS enables the President and state and local governments to provide immediate communications and information to the general public.¹³ State and local area plans identify local primary sources responsible for coordinating carriage of common emergency messages from the sources such as the National Weather Service or local emergency management officials.¹⁴ Required monthly and weekly tests originate from EAS Local or State Primary sources and must be retransmitted by the participating station. As the nation's emergency warning system, the EAS is critical to public safety, and we recognize the vital role that broadcasters play in ensuring its success. The Commission takes seriously any violations of the Rules implementing the EAS and expects full compliance from its licensees.

7. The record evidence in this case establishes that KLL violated Section 11.35(a) of the Rules. Section 11.35(a) of the Rules states that EAS Participants are responsible for ensuring that EAS Encoders, EAS Decoders, and Attention Signal generating and receiving equipment used as part of the EAS are installed so that the monitoring and transmitting functions are available during the times the stations and systems are in operation.¹⁵ Section 11.35(a) also requires EAS participants to record in station logs the reasons why any EAS tests were not received.¹⁶ On February 7, 2013, a Denver agent inspected the Station's main studio in Salt Lake City, Utah, and found that the Station had no EAS logs. On February 8, 2013, a KLL representative informed the agent that the Station had no EAS records or logs. In its NOV Response, KLL acknowledged that the Station's EAS equipment was not monitoring the required local EAS sources, the required weekly and monthly tests were not being properly and regularly received and transmitted, a record of the deficiencies was not being made regularly in the station logs, and no EAS logs were being generated.¹⁷ Therefore, based on the evidence before us, we find that KLL apparently willfully and repeatedly violated Section 11.35(a) of the Rules by failing to maintain operational EAS equipment and logs.

B. Proposed Forfeiture and Reporting Requirement

8. Pursuant to the Commission's *Forfeiture Policy Statement* and Section 1.80 of the Rules, the base forfeiture amount for failing to have operational EAS equipment is \$8,000, and the base forfeiture amount for failure to maintain required records is \$1,000.¹⁸ Applying the *Forfeiture Policy Statement*,
