**WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON REQUEST BY
GLOBE WIRELESS RADIO SERVICES INC. FOR WAIVER OF PART 80 RULES TO ALLOW
COMMUNICATIONS BETWEEN PUBLIC COAST STATION ABOVE 5 MHz**

WT Docket No. 14-43

Comment Date: April 9, 2014

Reply Date: April 24, 2014

Globe Wireless Radio Services Inc. (GWRS) filed requests for waiver of Section 80.453(d)(5) of the Commission's Rules¹ to allow the use of high frequency (HF) public coast frequencies above 5 MHz for communications between public coast stations. GWRS seeks waivers for its high seas public coast stations KFS,² Palo Alto, California; KPH,³ Rio Vista, California; WCC,⁴ Bishopville, Maryland; WNU,⁵ Pearl River, Louisiana; and a new station⁶ at Long Island, New York.

Section 80.453 permits public coast stations to provide radiotelephone and radiotelegraph service to ships and shore stations under certain conditions, but permits communications between public coast stations only on frequencies between .415 MHz and 5 MHz. GWRS states that in the past a large number of domestic and international coast stations provided adequate capacity for inter-station communications, but factors such as a decline in licensed public coast stations, the distance between stations, and HF propagation characteristics that are disrupted by sunspot cycles, atmospheric and seasonal conditions make it necessary to access all licensed HF frequencies to provide reliable communications between public coast stations. Consequently, GWRS requests a waiver to permit it to communicate between public coast stations on authorized frequencies above 5 MHz. We seek comment on the waiver request.
