Report No. SES-01254

Wednesday June 23, 2010

SATELLITE COMMUNICATIONS SERVICES

RE: SATELLITE RADIO APPLICATIONS ACCEPTED FOR FILING

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

Application for Modification

Class of Station: Mobile Earth Station

Nature of Service: Mobile Satellite Service

LXE, Inc. ('LXE') seeks to modify call sign E020074 in order to add a new terminal type (i.e., the SAT-232) to its authorization. By this modification application, LXE is not seeking to increase the total number of terminals that it is authorized for; rather, it seeks to use the new SAT-232 terminal as part of the 25,000 terminals for which it is already authorized.

Registration

Class of Station: Fixed Earth Stations

Nature of Service: Fixed Satellite Service

This earth station registration is not issued operation as a Ku-Band receive-only frequency(ies) earth station, due to Application for a Receive-only earth station requesting 12 GHz frequency (Ku-band) was submitted. The Commission does not license Ku-band 12 GHz frequencies for receive-only stations, in accordance with Memorandum Opinion and Order, CC Docket No. 78-734, (adopted December 9, 1986). It was decided that a licensing program for receive-only earth stations operating in the 12 GHz frequency band was unnecessary because there are no other primary users in this spectrum. Receive-only earth stations are licensed for the 4 GHz C-band only.
