## 2015 ANNUAL REPORT

Attention: International Bureau

Dear Ms. Dortch:

SES Americom, Inc., SES Satellites (Gibraltar) Limited and New Skies Satellites B.V. hereby submit the report required by Section 25.170 of the Commission's rules. Part 1 of this report provides data regarding space stations not performing to specifications. Part 2 lists the names and contact information for resolution of interference problems and for emergency response. Part 3, which addresses construction progress for authorized replacement satellites, is not applicable at this time.

Please contact me with any questions concerning this submission at [petra.vorwig@ses.com](mailto:petra.vorwig@ses.com) or (202) 478-7143.

Respectfully submitted,

/s/ Petra A. Vorwig

**PART 1: 47 CFR §25.170(a)**

SES Americom, Inc., SES Satellites (Gibraltar) Limited and New Skies Satellites B.V. have no new transponder failures to report. However, power constraints resulting from solar array failures on a number of satellites may limit the total number of transponders that can be operated simultaneously on these satellites. The actual reduction in the number of operational transponders depends on the number of solar array failures as well as the traffic loading on each of those satellites.
