

Exhibit to Experimental License Application

Applicant, Florida Atlantic University Board of Trustees, A public body corporate of the state of Florida, a university applicant, will use the experimental license to be granted pursuant to this application in a university lab in its College of Engineering and Computer Science for purposes of hands-on education for students enrolled in applicable courses at the college.

All operation of the equipment in a manner that would have the potential to cause harmful interference to other licensees of the frequencies requested herein in the proposed area of operation will be coordinated in advance to avoid any such harmful interference.

The college will immediately suspend the operation of any equipment if such operation causes harmful interference despite prior coordination efforts until such time as a satisfactory interference mitigating solution can be implemented.
