Re: Request for experimental STA

James, after doing some research it appears that your request should pose no problem here in the Monterey Bay Area and specifically the Laguna Seca Race Track. Furthermore I am interested in finding out how this works out. This approval is contingent upon you providing an onsite phone number and also the hours of operation. Thank you for contacting me and good luck on your project.

Best regards,

Ron Thompson

Re: Update of Experimental STA

Thank you for your contact number and also the hours of operation. You are good to go.

Best to you, Ron
