

## **Exhibit A**

### **STA Purpose and Explanation**

Lockheed Martin will be operating its MONAX Cellular solution along the southwest border of Texas. This operation will be supporting evaluation by local and state authorities of the MONAX solution for utilization in securing the border with Mexico. As part of the operation the MONAX system will be used solely within the State of Texas and the boundaries of the United States of America. At no time will any equipment that is a part of the system be taken into or used in Mexico.
