Subject: Request for Info - File #0035-EX-PL-2014

Message:

Dear Doug,

I write to confirm that Google does not seek confidentiality for any of the information contained on Form 442 itself, including the frequency band in which we propose to operate. It was not our intention to seek confidentiality for the entire application, only for those parts enumerated in the request for confidentiality, which is appended to Form 442.

Please let me know if this resolves the issue and our application can now be processed and reviewed.

Cheers,
Aparna Sridhar
