RE: Amend STA File Number 1201-ES-ST-2019

John Winch
WINCHWORKS, LLC

To Whom It May Concern:

Please utilize this document as a formal request to amend granted Special Temporary Authority to transmit microwave file number 1201-EX-ST-2019, confirmation number EL230187 currently held by Sierra Nevada Corporation.

The STA amendment requested is the Justification Exhibit, as well as, the dialog within the “purpose” section of the STA application. The exhibit and the application both incorrectly list “The United States Southern Command (USSOUTHCOM)” as the requestor of the STA. To correct this, both the Justification Exhibit and the “purpose” section of the application must list the Department of Defense as the requestor of the STA.

Thank you for your assistance with this process.

Sincerely,

John Winch
