**Re: Application Update
General Atomics, ELS File No. 1064-EX-CN-2020**

Dear Ms. Dortch:

General Atomics hereby updates two exhibits in the above-captioned proceeding, Exhibit A and NTIA_GA-EMS OTB-3 S-Band ("NTIA Space Record Data Form"). The revised Exhibit A contains a technical narrative describing the experimental application and replaces the previously submitted document, a PDF of the Form 442, which was erroneously submitted. The revised NTIA Space Record Data Form adds the 2079.75 MHz Earth-to-space (backup) link, which was erroneously omitted from the prior document. Please feel free to contact me if you have any questions.

Respectfully submitted,

/s/ Victor Gomez
