Dear james.e.ortega@rtx.com,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 210857 is assigned an FAA Coordination number NG T210873 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: MUST SUPPORT MILITARY PROJECT AND LINE-OF-SIGHT DATA COMMUNICATION.
RENEWAL OF THE ASSIGNMENT IS CONTINGENT UPON MILITARY CONTRACT NUMBER.

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 4/13/2022; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T210873
Frequency	M1370.0000
Upper Frequency	M1390.0000
City	FORT BENNING
State	GA
Transmitter Radius	0004
Transmitter Latitude	322215.00N
Transmitter Longitude	0844818.00W
Receiver Latitude	322215.00N

Receiver Longitude	0844818.00W
Equipment Type	C,RAY XNET EPLRS RADIO, AN/PRC
Antenna Type	BLADE
Flight Level	030

Best regards,

FAA Spectrum Engineering Services
