MatrixSpace Experimental STA Application
Request for Confidentiality
Application File Number: 1915-EX-ST-2021

MatrixSpace is requesting confidentiality for the exhibits filed in support of experimental license application file number 1915-EX-ST-2021, to the extent allowed by the Commission's Rules, 47 C.F.R. §0.459. Should the Commission be unable to grant this confidentiality request, the applicant requests that the Commission contact the applicant as soon as possible.

The radio operations proposed under this application are for the testing of advanced radio technologies that are under development. Some of the development is for federal customers, some is for public safety operations.While the Commission's Rules automatically protect some national security information from public disclosure under 47 C.F.R. §0.457, the application submitted here does not fit into the specific provisions of Section 0.457. Therefore, MatrixSpace is seeking to protect the information submitted here under the provisions of Section 0.459 of the Commission's Rules. The request for confidentiality is intended to protect proprietary and sensitive information about how the system is being designed and to protect proprietary technology from unwarranted exposure.

Additionally, the exhibit to the filing includes some technical information which MatrixSpace wishes to keep secret from foreign entities that may be searching the FCC's public filings, in addition to shielding the sensitive information from general release.

This request for confidentiality requests that the Commission withhold from public view any information related to the exhibits filed with this application. Protection of this information is essential to preserve MatrixSpace's ability to fulfill its responsibilities to its Department of Defense customers and to protect the American public.

In accordance with the OET Electronic filing system requirements, a point by point explanation of the request under section 0.459 of the Commission's Rules is set forth below. MatrixSpace hereby requests confidential treatment of the exhibits including link budgets and technical data.

Subsection (b) (1): information to be kept confidential – all information in the exhibit to application and as much of the application as can be kept confidential;

Subsection (b) (2): This application is submitted as required by law to seek authorization to operate, however the circumstances of the operation require that this confidentiality request be filed in the interests of national security and to protect trade secrets. This explanation is provided more fully above.

Subsection (b) (3): Some aspects of the missile testing are protected trade secrets, and as such, confidential treatment of this application will protect from the public

some of the tools and techniques that MatrixSpace keeps secret to advance the development of its products.

Subsection (b)(4): N/A

Subsection (b)(5): N/A

Subsection (b)(6): Only this submission with the accompanying confidentiality request has been made public, the rest of the information is at a secured facility and classified;

Subsection (b)(7): The underlying information is available only to individuals with the authority to access the information at the relevant secured facilities.

Subsection (b)(8): National security requires that this information be kept confidential during processing AND for the duration of any license, and license renewal, that is issued.

Subsection (b) (9): N/A
