Liteye Systems, Inc is partnering with SAIC under a Small Business Innovation Research (SBIR) contract sponsored by the US Army Rapid Capabilities and Critical Technologies Office (RCCTO). The goal of this SBIR is to develop a highly transportable Counter-small Unmanned Aerial System (C-sUAS) defense system. This system utilizes existing EO video and thermal imaging technologies in conjunction with a newly developed Ku band 3D radar from Numerica Corporation that is specifically designed and optimized for detection and tracking of Group 3 UAS.

Goals of the SIBR:

- Testing of new 3D radar capabilities
- Integration into existing battle management systems
- Integration into US Army Directed Energy systems for Counter UAS operations
