**To:** winchworks@me.com  
**Cc:** Diem.T.Nguyen@faa.gov

---

Dear winchworks@me.com,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 220123 is assigned an FAA Coordination number NG T220127 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

**COMMENTS: THIS ASSIGNMENT IS LIMITED TO THIS DEMONSTRATION AND ANY FURTHER USE WILL REQUIRE ADDITIONAL COORDINATION WITH THE FAA.**

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 8/23/2022; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

<b>Attribute</b>	<b>Record Parameter</b>
Serial Number	NG T220127
Frequency	M1370.0000
Upper Frequency	M1390.0000
City	YUMA PROVING GROUND
State	AZ
Transmitter Radius	50 NM
Transmitter Latitude	325201.00N
Transmitter Longitude	1142351.00W
Receiver Latitude	325201.00N
Receiver Longitude	1142351.00W
Equipment Type	C,TXT40393-40005-10
Antenna Type	DIPOLE

Flight Level	15000 Feet
--------------	------------

Best regards,

FAA Spectrum Engineering Services TRK 220123\_NG
