Application Narrative for Proposed Equipment

Proposed Program

Ford is proposing GPS within their lab facilities for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the facility, located at 16640 Southfield Rd, Allen Park, MI 48101 and the other locations designated in the Form 442 application with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their electronic systems/vehicles to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
