Max Khanin
Electronics System Engineer
Mitre Corporation

RE: Mitre Corporation
Special Temporary Authority

Dear Mr. Khanin:

APCO-AFC is in receipt of your request via email for coordination of Mitre Corporation's Special Temporary Authority. Specifically, Mitre Corporation has requested Special Temporary Authority (STA) from the FCC to operate in the following frequency ranges 798-808 MHz and 832-849 MHz in the date range of 6/22/22 to 9/30/22 with intermittent usage.

MITRE has filed an STA request to support a technology demonstration of a private internal ship-board communication network for the US Coast Guard upon a US Coast Guard vessel. For this proof of demonstration, transmitters will be placed in various rooms inside a USCG ship and will be acting as access points for mobile users inside that space.

APCO has completed its review of the application and related documents. APCO has determined that operations as proposed would not cause any harmful interference to Public Safety incumbents.

We do ask, however, that if Mitre Corporation operations cause any harmful interference to Public Safety incumbents, Mitre Corporation should cease operations on identified frequencies.

If there are any questions or concerns, please contact undersigned at (386) 944-2476 or email latiff@apcointl.org.

Sincerely,

Farokh Latif
APCO-AFC Director
