MRTC, Ltd.  
STA Application 1312-EX-ST-2022  
Frequency Coordination Exhibit and Narrative  
BMW LMDh Testing  
September 19, 2022 through December 7, 2022**

This application proposes the use of VHF business and industrial land mobile, channels in the immediate area of five different motor speedways for terrestrial only, voice communications for racing cars and communications with pit crews of a single race team for testing a new type racing automobile within the specified motor raceways. The BMW race team is testing an LMDh (Le Mans Daytona h) vehicle, which is a type of sports prototype race car that competes alongside Le Mans Hypercar entries in the Hypercar class of the FIA World Endurance Championship. All radio frequency operation is being coordinated by MRTC, Ltd. of the United Kingdom on site.

An engineering analysis has shown that there should be no interference to any licensed user of any of the subject channels at any venue. However, should any FCC-licensed or United States government station report interference during the proposed operations, operation on that channel will immediately cease and not resume unless and until the interference complaint is resolved. There are on-site MRTC coordinators who are charged with interference avoidance and mitigation.

**The stop-buzzer contact for this event is Mr. Sebastian Wollschläger of MRTC Motorsports, who can be reached at +49 (0)172 2921716. Alternatively, counsel for the applicant can be reached by mobile phone at any time at 301-351-3795 and will act as an additional stop-buzzer contact for this event as well.**

Land mobile channels to be utilized during the race event within the requested band limits have been investigated using the Commission's ULS database and will be monitored on-site and determined to be unoccupied prior to commencement of operation. Technical coordination staff will be on site during the race and channel monitoring and on-site frequency coordination will ensure against any interference.

All communications can also be directed to the office of counsel for MRTC Motorsports Communications:
