

Exhibit 1A – Program Description – revised 2022-09-07

Saab has produced the SR-3 radar system since 2014 for the International marketplace. This license is required for us to continue our SR-3 development effort to improve the system along with integration and test of production system performance.

Previous Surface Movement Radar licenses were issued under call signs WG2XNC and WJ2XOQ.

Since our original application in April 2022, Saab has received a new contract from the FAA in June of 2022. The details of the FAA RIPSAs contract are included below.

CONTRACT NO. 693KA8-22-D-00030, DELIVERY ORDER NO. 693KA8-22-F-00281

John A. Dutton Jr., PMP, Program Manager
