

Modification to WM2XAR

The Aerospace Corporation would like to modify the existing WM2XAR license, again, in the following way:

1. The orbit has changed from 500 km x 480 km and 85° inclination to 495 km x 495 km and 96.4° inclination.

In support of this modification request, the following exhibits were changed and uploaded:

- 1 LLITED ODAR_FCC_v3 (changed information related to orbit)
- 2 LLITED Mission Statement v3 (has errors, please omit, replaced by v4)
- 2 LLITED Mission Statement v4 (changed information related to orbit)
- 3 LLITED DAS Activity Log v6 (updated for new orbit)
- 4 LLITED NTIA Space Record Data v5 (updated for new orbit)
- LLITED Updated Orbit 4OCT2022 (SpaceCap database updated for new orbit)
- 7 ITU cost recover letter v3 (updated with new FCC file number)
- 12 LLITED Analysis of Non Interference v2 (updated for new orbit)
- LLITED license modification justification v3 (this document)
