

EXHIBIT 2

The State of California is requesting a 5 year authorization for this License.

We seek the change from the lesser 24 month licenses to 5 years (60 months), due to the GOES Program and other programs which are still in operation and has been for over 30 years. Due to our extensive number of Licenses a 5-year License is beneficial to timely filings and workloads.

We have been reaching out to engineering to scrub their licenses for ones which can be canceled. The GOES licenses probably will never go away as may others. As feedback and requests come in, the State of California will cancel this and any other licenses within 90 days of receipt.
