

DESCRIPTION OF OPERATIONS

Lockheed Martin Corporation hereby seeks authority under Part 5 of the Commission's rules to permit to integrate and test the Fortem True View Radar system with an in-house command and control SW suite. The R30 Radar will be fixed on a ground tripod 2 meters in height. The R20 Radar will not travel greater than 1km from the R30 Radar. The R20 radar will be airborne and operations conducted FAA Part 107, limited to an altitude of 400 feet AGL.
