Subject: Re: Request re: AFTRCC Coordination - BAE Systems - Pending Renewal Application - File No. 0273-EX-CR-2023 - Experimental Station WF2XJH

AFTRCC does not coordinate the band(s) in question as we have no standing in those bands.

All:

For the renewal of the attached BAE Systems license under call sign WF2XJH, the FCC has asked for AFTRCC coordination for the following ranges:

“Prior coordination with the AFTRCC is required for the frequencies 2.20000000 GHz-2.35900000 GHz 2.20000000 GHz-2.35900000 GHz 2.20000000 GHz-2.35900000 GHz requested in this application.”

- Can you please confirm if AFTRCC coordination applies to the 2.2-2.359 GHz range identified by the FCC?
- Can you please advise if AFTRCC coordination applies to any of the frequencies on the license, and if so which frequencies?

For any frequencies subject to AFTRCC coordination, please provide a quote for the coordination.

Best regards,

Jeff Rummel

Attorney for BAE Systems
