

**PURPOSE OF MODIFICATION**

Lockheed Martin Corporation ("Lockheed Martin") operates under its Part 5 authority to conduct testing and evaluation operations of sonobuoy devices at its Manassas, VA facility under contract to U.S. Navy (Naval Air Systems Command) contract (No. N0001919D0013).

The current modification seeks to add:

- (1) Frequency 291.4 MHz - for INDOOR OPERATIONS ONLY - to test a new very-low power radio furnished by U.S. Navy.
