

SUPPLEMENTAL STATEMENT

Anadarko Petroleum Corporation (“Anadarko”) respectfully requests renewal of its experimental authorization (Call Sign WK2XOI) to continue its program of experimentation to test and evaluate GPS within its Single Point Anchor Reservoir facility located in the Gulf of Mexico. Approval of this renewal will allow Anadarko to continue testing a Rockwell Allen Bradley GPS module, and other GPS timing and synchronization tools, to ensure equipment will perform optimally. The continued use of the experimental authorization will further Anadarko’s exploration of utilizing GPS technologies within petroleum tools to provide innovative applications and develop safe products and usage of tools.
