This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Guess it's lost in the inbox abyss, sorry Wayne...

Wayne:

MIDLANTAFC does not object to the use of the lower L-band and upper S-band channel usage (Frequencies: (MHz) 2360.0 - 2395.0 under AFTRCC ICN 1602-23/APP-2023-1727 (CPComms STA/NYC Marathon-New York, NY) with the following limitations and restrictions:

1) Non-interference basis to all Flight Test telemetry missions and no protection afforded to CP Communications operations.

2) Unprotected NIB operations are under an MO station class.
3) STOP BUZZER POC provided with cell and landline contact information that can cease any and, all CP Communications emissions if EMI is detected. Please reference FCC STA # and this AFTRCC ICN 1602-23/APP-2023-1727 coordination when notifying the MIDLANTAFC office of STOP BUZZER POC info.
