

Kuiper Systems LLC  
Call Sign WV9XOJ  
Application for Experimental License

### **Narrative Statement**

On June 1, 2023, the Commission granted Kuiper Systems LLC (“Amazon”) experimental special temporary authority (“STA”) to conduct antenna far-field measurements in Bridgeport, WA and Brewster, WA. *See* ELS File No. 1041-EX-ST-2023, Call Sign WV9XOJ. The STA expires November 24, 2023.

As provided under Section 5.61(c) of the Commission’s rules, this application for experimental license is intended to serve as a continuance or extension of the STA. 47 C.F.R. § 5.61(c). The extension, which Amazon seeks for an additional two years, is necessary to allow the company to continue its technical tests pending Commission action on this application.

As part of the instant request, Amazon incorporates by reference the narrative information describing the complete program of research and experimentation provided as part of its STA. *See* ELS File No. 1041-EX-ST-2023, Call Sign WV9XOJ. Amazon does not propose to change the technical parameters described in the STA as part of the instant experimental license request. Amazon does, however, seek to update the stop buzzer contact for this testing to the following contact:

Jonathan Bratt
