

Supplemental Narrative Explanation

This supplemental narrative explains the modifications and additions sought by NextNav in its application to modify its experimental license. NextNav seeks to modify the current authorized frequencies with the following increased power levels and additional emission designators:

Current Authorized Frequency	Current Authorized Power	Requested Authorized Power	Requested ERP	Current Emission Designators	Requested Additional Emission Designators
922.3 MHz	300 W (ERP)	1000 Watts	620 W (ERP)	5M00W7D	5M00W1D
923.7 MHz	30 W (ERP)	1000 Watts	620 W (ERP)	7M90W7D 7M20W7D	5M00W1D 5M00W7D
924.5 MHz	30 W (ERP)	1000 Watts	620 W (ERP)	5M00W1D	5M00W7D

NextNav also seeks authority for the following additional center frequency:

Requested Frequency	Current Authorized Power	Requested Authorized Power	Requested ERP	Current Emission Designators	Requested Additional Emission Designators
925.2 MHz	N/A	1000 Watts	620 W (ERP)	N/A	M00W1D 5M00W7D
